Please fill in all information above and include the following:

Demographics, Insurance Cards, Last Office Notes, Medications List and any Sleep Studies not completed by Z Sleep.

## THERAPEUTIC SLEEP STUDIES

### IN LAB SLEEP STUDIES

- DIAGNOSTIC/PSG** (95810) – No CPAP therapy initiated even when patient is positive for sleep apnea
- SPLIT NIGHT** (95811) – Diagnostic sleep study followed by CPAP titration if patient meets criteria
- TITRATION** (95811) – Treatment sleep study only. Used when patient has had a sleep study within the past 5 years and a baseline is not necessary. **YOU MUST CHOOSE ONE OF THE FOLLOWING:**
  - CPAP       BIPAP       ASV
- MULTIPLE SLEEP LATENCY TEST** (MSLT) (95805) – Used when narcolepsy is suspected. **MUST BE PROCEEDED BY PSG OR SPLIT. PLEASE CHOOSE ABOVE.**

### HOME SLEEP STUDIES *(Do not choose if IN LAB has been requested above)*

- HOME SLEEP TEST** (95806) - Used to detect obstructive sleep apnea in people with a moderate-to-high risk
- PULSE OXIMETRY** (94762) - Continuously measures blood oxygen saturation and heart rate during sleep
